

NOTICE TO MARINERS NO. 5/21

(Small Craft Notice)

River Wye, Brockweir

Maintenance work, Brockweir Bridge

Mariners are advised that from 09th August 2021 essential maintenance work is to commence on Brockweir Bridge. This will involve the installation of a scaffolding structure around and beneath the bridge for the entire span of the river. Works are expected to take between 18-25 weeks.

Though passage for small craft will still be possible throughout the period of the work, available air draft will be reduced by approximately 2 metres. The lower extremity of the scaffold structure will be marked by a yellow flashing light in the centre of the bridge.

River users are therefore requested to proceed with caution and pay due regard to tidal height in relation to the reduced air draft in order to avoid risk of damage to vessels and/or suspended scaffolding.

Notices to Mariners may be viewed on the Trustees' website:

www.gloucesterharbourtrustees.org.uk

Owners, Agents and Charterers should ensure that the contents of this Notice are made known to the Masters or persons in charge of their vessels or craft.
