

NOTICE TO MARINERS NO. 5/23

Chart BA 1166 Avonmouth to Hock Cliff

West Coast, River Severn

Severn Estuary – Bathymetric Survey

Mariners are advised that during 10th and 11th May, for several hours of each daylight HW period, it is planned that the survey vessel “Shoreline” will be conducting a bathymetric survey in and adjacent to the main navigation channel in the Slimeroad Sand area, from North of the Severn Crossing to just South of Inward Rocks.

The survey vessel will display the relevant day shapes and will maintain listening watch on VHF channel 13 whilst operating in the harbour area.

The “Shoreline” will not be restricted in her ability to manoeuvre and will liaise with commercial vessels transiting the main navigational channel, but all vessels are requested to give the survey vessel a wide berth where possible.

Notices to Mariners may be viewed on the Trustees' website:

www.gloucesterharbourtrustees.org.uk

Owners, Agents and Charterers should ensure that the contents of this Notice are made known to the Masters or persons in charge of their vessels or craft.
